

Pay: \$11.00 an hour. They receive a dollar raise when they go perm.

No Shift Differential

Temp to Hire

Shift: 3:00pm – 11:00pm/11:30pm

Candidates must be able to meet these needs:

- Communicate in English – it is fine if it is a second language but to be able to take instructions and directions and communicate in English will be important

- They must be dependable and be able to work the scheduled shift (3:00pm – 11:00pm/11:30pm)

- They must be able to follow a master sanitation list

- If they have some familiarity with using chemicals that's a huge plus

In regards to the chemical question, in their diluted form they are non-hazardous. Prior to dilution they are considered hazardous. I did want to be sure I circled back around to this question as I know you both asked during our meeting.

Stephanie was open to possible using candidates which had cleaned pools before, it might be worth a try.
